Abstract: Pursuant to the Boulder Canyon Project Act (43 U.S.C. 617; Public Law 70-642, 45 Stat. 1057), all diversion of mainstream Colorado River water must be in accordance with the Colorado River water entitlement. The Consolidated Decree of the United States Supreme Court in *Arizona v. California*, 547 U.S. 150 (2006) requires the Secretary of the Interior to account for all diversions of mainstream Colorado River water along the lower Colorado River, including water drawn from the mainstream by underground pumping. To meet the water entitlement and accounting obligations, an inventory of wells and river pumps is required along the lower Colorado River, and the gathering of specific information concerning these wells.

Form Number: Form LC-25.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined.
